Field Trip Policy

For the protection of the school, students and volunteer drivers, Word of Life Lutheran School has instituted a policy which assures that children attending field trips are being chaperoned in cars with adequate numbers of seat belts and personal liability coverage. As a volunteer driver I stipulate with this document that I have the number of working seat belts listed below and current auto liability insurance.

Car Model _____ Year _____

Current number of working seat belts _____

Current Liability Insurance Carrier _____

Policy Number _____

I understand that this policy is for my protection and will inform the school if any of the information on this form changes. I understand that the school liability insurance offers me additional protections but does not remove all liability from me should an accident occur. I also understand that I may need to contact my insurance company to make sure that my vehicle, passengers and myself are covered during such trips.
