

Covid Considerations

We are hoping to have a safe and healthy school year. Variants of COVID continue to arise and cause health officials to monitor current spread. Word of Life wants their staff and students to be safe and able to take precautions they feel will best keep themselves safe. Here are just a few considerations:

- Parents may decide to have their children vaccinated or boosted. There are no vaccination mandates for attendance at Word of Life.
- Parents and students may decide whether or not to be masked.
 - Masks are not required for attendance.
 - If masks are worn, students must provide their own masks. Word of Life will not supply masks at the door, in the classroom or through the office.
 - N95 masks have shown to be the most effective form of masking.
- [Current COVID quarantine and isolation guidelines](#) are generally:
 - If NOT vaccinated
 - Mask
 - Quarantine for 5 days
 - Get tested
 - Monitor for symptoms for 10 days
 - If vaccinated
 - Mask
 - Get tested within 5 days of exposure
 - Monitor for symptoms for 10 days
 - If testing positive
 - Quarantine for 5 days after positive result
 - Remain quarantined for 5 days or until 24 hours following the break of fever or symptoms
- COVID has helped us remember how quickly colds and viruses are spread. Thanks for being careful about:
 - Keeping your child home if they have a temperature over 101*
 - Staying home for 24 hours after a fever has broken
 - Considering keeping your child home or masking your child if they are coughing, sneezing and having a running nose that is not allergy related
- If your child is coughing, sneezing or having other symptoms in the classroom, your child may be asked to mask. We will notify you so you can take the proper steps for the health and safety of your child and all of the children at Word of Life.

Thank you for working together with us. If you have questions or concerns, contact the school office at 414-281-7808.
